

ELECTRONIC SIGNATURE

Save time thanks to our electronic signature solution, 100% from Luxembourg !

RSIGN, AN ELECTRONIC SIGNATURE 100% FROM LUXEMBOURG

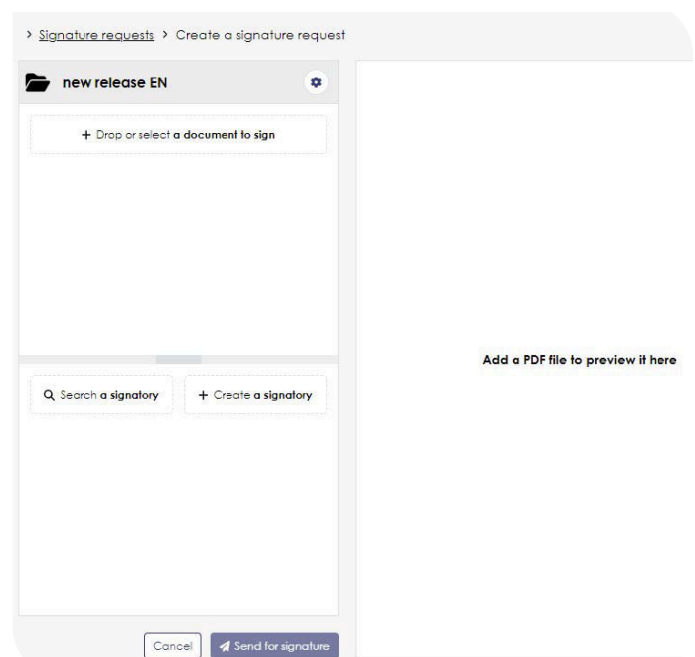

Rsign is the first platform in SaaS, 100% from Luxembourg, which offers an electronic signature service, complying with the European Regulations “eIDAS”. These regulations implement a European framework in terms of electronic identification and its reliable services. The documents signed by this kind of signature are accepted as evidence by a judge.

Rsign is completely responsive application and addresses to all businesses, from TPE to the biggest ones, as well as PSF companies.

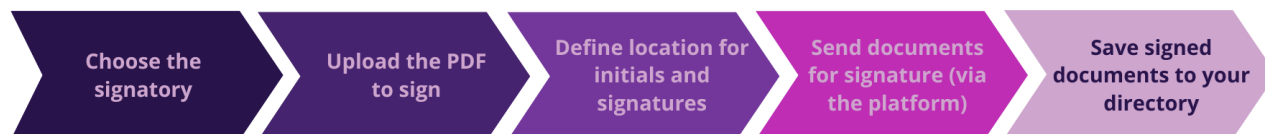

TYPES OF SIGNATURES

- ◆ **ADVANCED SIGNATURE** : safe and reliable, it meets the eIDAS’ requirements, defined in article 26. With equivalent value as a handwritten signature, it enables to sign documents thanks to a unique SMS code or by email. Optionally, video identification enables to verify the signatory based on its ID.
- ◆ **CERTIFIED SIGNATURE** : is the strictest of electronic signatures as it enables to sign documents with certificates, issued by reliable third parties (recognized organizations) such as e-ID cards, or smartcards.

AN EASY AND INTUITIVE INTERFACE

Easy to use
